

CONVENIENT, AFFORDABLE URGENT CARE COMING TO VALLEY

MainStreet Family Urgent Care to Open this January

FOR IMMEDIATE RELEASE

September 26, 2016 (Valley, Ala.) – MainStreet Family Urgent Care will soon welcome a new urgent care and family care clinic to Valley. Maxus Construction will break ground this week on a new medical facility, which will be located two blocks from Walmart next to Advanced Auto Parts

“We are excited and grateful for the opportunity to serve communities like Valley, Cusseta, Beulah, Lanett, and Huguley,” stated Chief Executive Officer of MainStreet Family Urgent Care, Sam Eskildsen. “We consider our staff and our patients as one family, and in a time of need we help get our family members feeling better, fast. Our hope is that offering patients the convenience of shorter wait times and same day appointments with trained, certified providers will make healthcare accessible to everyone near Valley and the surrounding area.”

The 3,200 square foot facility will feature multiple exam rooms, on site lab testing and X-ray capabilities. The clinic will not only provide treatment for everyday illness like flu and strep throat, but also perform a number of diagnostic tests, and even minor procedures, such as suturing and foreign object removal. Furthermore, the clinic delivers a choice of occupational health services such as worker’s compensation management, pre-employment drug testing and DOT physicals. MainStreet Family Urgent Care offers services ranging from school and sports physicals for kids to safety training and certification for employees.

Open seven days a week with extended hours, MainStreet Family Urgent Care aims to make healthcare easier for patients. The in-house Pharmacy carries several commonly prescribed medicines to save patients the time of having to make a trip to the pharmacy. Additionally, customers can schedule appointments through the website and Facebook Page in order to secure a time that best fits a packed and busy schedule.

“Not only will the state-of-the-art clinic in Valley significantly advance the delivery of quality and efficient health care services to patients,” said MainStreet Family Urgent Care Medical Director, Timothy “Timbo” Taylor, M.D. “But we also hope the convenient services

and friendly staff will make the entire ordeal of being sick or injured a much more pleasant experience.”

When doors open this October, MainStreet Family Urgent Care will host a Grand Opening Event for the entire Valley community.
